Kraftstoffpumpe Alu HP1 4

Artikelnummer: KS2742

Kraftstoffpumpe Alu HP1 4

Hersteller: Robbe Modellsport

We have been dedicating our time and research for designing the perfect electric fuel pump.
It is packed with all our recent developments and latest technology for electric fuel pumps.
Fuel Ability: 18cc / 1 Sec (3.5V)
Current consumption: 4A / 1hour
Acceptable Voltage: 3.0 - 7.2V (Recommend 3.7V:Lipo battery or 4.8V Ni-MH battery)
Motor : 380 class hi torque motor installed

*If you feel it is too fast to refuel, we recommend you to use the dry battery(4).

*There is a possibility the silicon tube will fall out since it is powerful. To prevent this, we recommend using, KS653 FUEL LINE CLAMP (3 PCS PER BAG).

*If you use KS2730 Thick Silicon Tube set for Fuel Pumping, it will be faster to refuel.

Preis: 99,90 EUR [inkl. 19% MwSt zzgl. Versandkosten]
