

1:14 Alu Kupplungshebelplate 2/3 Achs

Artikelnummer: 300056535

1:14 Alu Kupplungshebelplate 2/3 Achs

Hersteller: Dickie - Carson/Tamiya

1:14 Alu Kupplungshebelplate

Aluminum parts give a more authentic weighty feel when compared to kit-standard plastic parts. This coupler lever plate is a part used in the coupler unit of R/C tractor truck models, which enables the use of separately available support legs. The aluminum part gives Tamiya's RC semi-trucks a more realistic look.

• Aluminum Coupler Lever Plate x1

• Screws and other small parts necessary for attachment are included.

• Compatible with 1/14 scale R/C tractor trucks.

• Note this part can also be attached when separately available support legs are not being used.
