Artikelnummer: 300087163

Schleifschwamm 320er K rnung 114x140mm

Hersteller: Dickie - Carson/Tamiya

Tamiya Schleifschwamm 320er K rnung

Tamiya is pleased to announce the extension of its range of sanding materials. Attached to a flexible sponge base, the abrasive coat of this sanding sheet is well-suited to removing protrusions on plastic models and also finishing materials such as wood and metal. The sponge's flexibility allows even finishing of curved surfaces and hard-to-reach corners. This item can be easily cut into the desired shape/size using a modeling knife. Also suitable for wet sanding use. Choose from 3 different levels of abrasion.
